Profile

Passionate Web and Mobile application developer with over 2 years of experience specializing in React, Next.js, and React Native.

Committed to delivering top-notch work and optimizing user experiences in SaaS and e-commerce platforms. Open to Exciting Career Opportunities.

Employment History

Web and Mobile Applications Developer, WQSoftwares, Peshawar

MARCH 2022 – DECEMBER 2023

Demonstrated expertise as a React & React Native Developer at WQSoftwares, focusing on creating dynamic web and mobile applications. Employed advanced proficiency in React, Next.js, React Native, and Redux, including the RTK, to deliver top-tier, user-friendly solutions.

Key Achievements

- **Jaaidad** (<https://hcldelivery.com>) - Spearheaded the development of Jaaidad.com, a cutting-edge SSR-based platform built with Next.js, & React Native for mobile. Innovated seamless buying and selling experiences.
- **HCL Delivery** - Engineered and implemented web and mobile applications for HCL Delivery, a parcel delivery service in Saudi Arabia, offering express delivery services and innovative e-commerce solutions.
- **Rungovern Mobile App** - Spearheaded the contributor in the development of a comprehensive ERP system mobile app with diverse functionalities, including attendance management, HRM, project management, file tracking, announcements, and an employee self-service portal.

MERN Stack Developer, ItecExpert Pvt Ltd, Peshawar

MARCH 2024 – PRESENT

Working as a MERN Stack Developer at ItecExpert Pvt Ltd, Utilizing skills in ReactJS, NextJS, Tailwind CSS, JavaScript, Typescript, NodeJS, and MongoDB to deliver high-quality applications.

Responsibilities:

- Design, develop, and maintain high-quality web applications using the MERN stack (MongoDB, Express, Reactjs / Nextjs, Nodejs).
- Translate UI/UX designs and wireframes into functional and responsive user interfaces using NextJS and Implement interactive features using JavaScript and Typescript.
- Develop and implement robust, scalable, and secure APIs for seamless communication between front-end and back-end systems.
- Design and implement database schema using MongoDB to store and manage application data.
- Write clean, well-documented, and maintainable code. Troubleshoot, debug, and optimize code for performance and reliability.
- Participate in code reviews and contribute to maintaining consistent coding standards.

Key Projects

Tushifa - Patient Prescription Management System, <https://tushifa.org/>

- Developed a comprehensive Next.js web application for a healthcare organization, enabling efficient patient prescription management.
- Implemented user authentication, roles for admin and pharmacist, QR code scanning for patient details, prescription approval workflows, and weekly reimbursement tracking for pharmacies.
- The system enhances the healthcare workflow by seamlessly connecting patients, pharmacists, and administrators for streamlined prescription fulfillment and management.
- Built with NextJS, NodeJS, MongoDB & Bootstrap.

Seven Century - React Estate Market Place in Dubai, <https://7century.vercel.app/>

The **objective** was to create a comprehensive **real estate marketplace** that simplifies buying, selling, and renting properties in Dubai.

I leveraged NextJS technologies to build a dynamic, responsive, and high-performance website to achieve this. Key features of the solution include Advanced Search and Filters, Responsive Design, Customizable Components, and utilized the RTK Query for APIs integration.

Mrrelatable (Pixel Perfect Viewport Website With Bootstrap) - <https://mrrelatable.com/>

MARCH 2022 – APRIL 2024

- At Mrrelatable, Tasked with creating a pixel-perfect Bootstrap front-end website, meticulously crafted in Figma.
- Translated the intricate Figma design into a pixel-perfect Bootstrap-based website, capturing the essence of the client's vision with precision.

Education

Bachelor in Software Engineering, Islamia College University Peshawar, Peshawar

SEPTEMBER 2018 – DECEMBER 2022

- Achieved academic excellence with a GPA of 3.5+, demonstrating a commitment to scholastic excellence throughout the Bachelor of Science in Software Engineering program.
- Recipient of the Best Performer Award for consistently high performance, acknowledging dedication and proficiency in software engineering studies.
- Built with NextJS, NodeJS, MongoDB & Tailwind CSS.
